13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This sundry is to amend the original P&A sundry submitted on 06/02/16 by Vanguard's agent and approved by the Carlsbad Field Office on 06/21/16 in order to prepare the well bore for release for an attempted completion as a fresh water well. The proposed modifications are as follows:

Step 7. Cut 4 1/2" casing at 1,500'. TOH and lay down casing. Spot 60 sx cement plug from 1,500' to 900'.

Step 8. WOC & tag plug. Spot additional cement as necessary to fill casing to 900'.

Step 9. Secure well. RD and move off plugging equipment and release the well bore to the rancher.

Note: The rancher has requested that certain surface equipment also be released to him. All production equipment not released to him will be removed. The gas purchaser will be notified that the well is abandoned for gas production. A request will be made for them to remove their equipment and properly abandon their line.

Original COA still applies up to 1,500 feet and new proposed modifications are approved as written.
