NATURE OF RELEASE

Type of Release: Surface <i>* CRUDE</i>	Volume of Release: 10 bbl.	Volume Recovered: 10 bbl.
Source of Release: Overfilled tanker trailer	Date and Hour of Occurrence: 10/01/16 at 1700	Date and Hour of Discovery: 10/01/16 at 1700
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The driver overfilled his tanker trailer releasing approximately 10 bbl. of crude onto the caliche pad. Caliche was applied to the pad to absorb the pooled crude, and the spill area was excavated using a backhoe.

Describe Area Affected and Cleanup Action Taken.*

A backhoe was used to excavate the impacted caliche pad. Two confirmation soil samples were collected for the excavated area, and one background soil sample was collected on October 2, 2016 and submitted for laboratory analyses. Laboratory analytical results indicated elevated chemicals of concern in confirmation soil sample 1@9". Therefore, on October 12, 2016, additional excavation was performed. An additional confirmation soil sample was collected from the excavated area and submitted for laboratory analyses. Analytical results for the soil sample collected on October 12, 2016 are pending. The laboratory analytical results for the soil samples collected on October 2, 2016 are attached. The excavated soil is stockpiled on site pending disposal.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
