Good afternoon Gilbert,

We have received the two inspection notices regarding our wells. The first was for the Volleyball State #1 having a tank battery containment that has eroded away – we will have that remedied shortly and I will let you know once it is done. The other notice was for three wells with illegible well signs. The well signs have been taken care of and I was wondering if I need to give some kind of official notice to you, such as a particular form to be filed or anything like that.

Pictures of the 3 well signs are attached, but I can file anything else you need me to.

Thanks!
