Amend Casing Program

BOLD ENERGY, LP proposes the following changes to this well's drilling program:

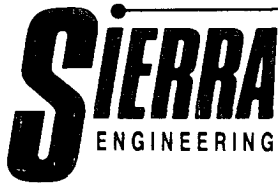

- Delete 13 3/8" (300') casing from program. Spud with and drill 12 1/4" hole from 0' to approx 1700'.
- Set 9 5/8" casing at approx 1700' and cement to surface.

Note: If hole conditions warrant, the 12 1/4" hole will be opened to 17 1/2" to approx 300' and the 13 3/8" casing will be set and cemented to surface as originally planned.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.

Re: Request to Amend Approved APD

Dear Mr. Barton:

BOLD ENERGY, LP is seeking approval of an amendment to an approved APD, which entails revision of the surface and intermediate casing program for the well listed below. I spoke with Phil Hawkins on Friday, February 24, 2006, regarding this request and, since this well is planned to spud on Monday, February 27, 2006, he recommended that I fax pertinent information and a copy of the C103 for your consideration. I will follow-up this fax with a mailing of the original C103 forms; however, I hope to receive your verbal approval of the revision so that drilling operations can proceed based on the revised casing program.

Location: Hot Box State #1  
770' FSL & 1880' FWL  
UL "N" of Section 6 - T19S - R23E  
Eddy County, New Mexico

API No. 30 - 015 - 34427

The APD for this well was originally filed by the former operator, Parallel Petroleum and it was approved by the NMOCD on November 16, 2005. BOLD ENERGY became operator of this property in 2006 and the Change of Operator was approved by the NMOCD on February 23, 2006. The casing program as originally submitted:

Hole Size	Casing	Weight	Set Depth	TOC
17½"	133/8"	48#	300'	Cemented to Surface
12¼"	95/8"	36#	1300'	Cemented to Surface

Casing program as revised by the attached C-103:

Hole Size	Casing	Weight	Set Depth	TOC
12¼"	95/8"	36#	1700'	Cemented to Surface

**Request to Amend APD**  
**API No. 30 - 015 – 34427**  
**February 26, 2006**  
**Page 2**

This request is based on our opinion that freshwater zones remain adequately protected by the revised plan and the precedent for this single-string program has been established by several recently drilled wells in this area. Please see the APD and/or subsequent operation reports for the following wells:

<b>Well Name</b>	<b>API No.</b>	<b>ULSTR</b>	<b>Depth</b>	<b>Operator</b>	<b>Drilled</b>
