13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

We need to instal a communications tower on the Federal 23-1 well pad.

The tower is rougly 120 feet high and would be used for monitoring wells in the area. Construction should take about three weeks and would not add any additional disturbance since it would be all on our existing well pad, in a 20 ft x 20 ft. space.

Survey plat is attached.

OK Per Ben Ballard 12-8-2016 No New disturbance
