Surface Disturbance

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Apache is needing to extend the Drill Pad approved under the Salt Fork 3-4 Federal Com #1H(APD), Section 3-T19S-R30E, NMPM, Eddy County, New Mexico. The expansion of the drill pad (approximately .25 [1/4] acre) will make it contiguous with the existing Turkey Track drill pad providing some of the additional area required for the drilling and completion operations for the two (2) Salt Fork 3-4 Federal Com approved APD's. In addition, Apache has future development plans for an additional two (2) more wells, the expansion at this time will allow for the existing and future development.
