13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Procedure: Notify BLM and perform MIT test. Wellbore diagram attached.

Legacy is requesting the well be placed in TA status for an additional 6 months. This was the last injector in the Tamano BSSC Unit. We are looking at the ramifications to the unit of us not having the well injecting.

*Last report of beneficial use (monthly injection): 11/2013  
Last TA approval expired. Ordered to resume injection or submit NOI for a plugging operation by 02/04/2017. Well is non compliant.*
