13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Matador requests approval to drill the Charlie Sweeney Fed Com #228H, Charlie Sweeney #208H and the Charlie Sweeney Fed Com 204H in a batch drilling scenario as follows:

The Charlie Sweeney Fed Com #228H will spud first and drill surface, 1st intermediate, and 2nd intermediate hole sections. After setting 2nd intermediate casing and installing the C-section, a 10M dry hole cap with a bleed off valve will be installed on the well. The rig will then walk over and spud the Charlie Sweeney Fed Com #208H and drill surface, 1st intermediate and 2nd intermediate hole sections. After setting 2nd intermediate casing and installing the C-section on this well, a 10M dry hole cap with a bleed off valve will be installed on the well. The rig will then walk over
