NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	50 BBLS	Volume Recovered	50 BBLS
Source of Release	Produced Water Storage Tank	Date and Hour of Occurrence	September 19, 2017 4:30 PM	Date and Hour of Discovery	September 19, 2017 4:30 PM
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	BLM- Shelly Tucker & OCD-Mike Bratcher		
By Whom?	Leonard Aguilar-Assistant Foreman	Date and Hour BLM:	September 20, 2017 2:43 PM	OCD:	September 20, 2017 2:54 PM
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	N/A		

If a Watercourse was Impacted, Describe Fully.\* N/A

Describe Cause of Problem and Remedial Action Taken.\*

The pump malfunctioned and went down on a pump malfunction and a low suction tank alarm. The storage tank started to spill out into the lined containment. Upon discovery the tank was isolated and immediately switched into a different storage tank to prevent any further release. The pump has been fixed.

Describe Area Affected and Cleanup Action Taken.\*

50 BBLS of Produced Water was released from the storage tank. A vacuum truck was immediately dispatched and 50 BBLS of Produced Water was recovered. The release originated from the Produced Water storage tank and was released into the lined SPCC containment. The approximate affected area is 90ft. x 40ft. on the well pad and inside the containment area. All fluid stayed within the lined SPCC containment. Once fluids were removed the liner was visually inspected by Devon field staff for any pinholes or punctures and none were found. Based on this inspection there is no evidence that the spill fluids left containment.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
