Mack Energy Corporation respectfully requests approval for off-lease measurement of gas production in various section in T15S R28E and T15S R29E. DCP Midstream is the purchaser of gas in this area. A single 4" line was the sales point for multiple leases operated by Mack. The existing DCP line was no longer capable of handling the production. Mack Energy installed a 10" gas line and associated 8" and 4" gathering lines. The sales point for gas production is now in Sec. 4 T16S R29E.
