13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Pursuant to email approval from Fernando Banos (attached), BOPCO, L.P. has finished conducting geotechnical testing of two site locations in Poker Lake Unit for site location of the potential Cowboy CDP. No clearing was required. No roads were built. Arch was on-site and present during the borehole testing.

Stephanie,

After reviewing the submitted sundry, BLM authorizes you to conduct the geotechnical testing on those two sites. Let this email be a letter of approval authorizing such action. As discussed with Brooke, the only thing BLM requires you for this geotechnical testing is to have an archaeologist monitoring the site while the test is taking place. Please let us know once the geotechnical test is done, and if you have any other questions or concerns.

Thank you and have a nice day!
