Violation of Rule 702:

Mechanical Integrity

Dear Sirs:

This second directive is to notify you that this well is still in violation of Rule 702.

On 14 April 2003 a letter was sent notifying you that the well had failed a MIT. On 16 July, 2003 the well failed another MIT.

**In the event that this well is not brought into physical compliance by 31 August, 2003,** further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of **CIVIL PENALTIES** for your violation of OCD rules.

Sincerely,

A handwritten signature in black ink, appearing to be "VB" or "Van Barton".
