13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

BOPCO, L.P. respectfully requests permission to defer reclamation of this location. Although the well on location has been plugged and abandoned, the PLU 78 CTB on location is active and connected to multiple wells within the Poker Lake Unit. Equipment on all sides of the pad.

POKER LAKE UNIT 078

This is a high-contrast, black and white aerial photograph of a military installation. The image is heavily textured with noise. Overlaid on the photograph are technical drawings and labels. A large rectangular area in the center is outlined, and within it, a smaller rectangular area is also outlined. To the left of the central area, there is a vertical structure with several circular components. A road or path runs diagonally from the bottom left towards the center. Another road or path runs horizontally across the middle. The overall scene appears to be a base or camp, with various structures and equipment visible. The labels 'POKER LAKE UNIT 078' and 'PLU #078-Bat' are prominently displayed in the center and lower center respectively.
