13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The attached pipeline corridor from our Iridium CTB to our flare pad was originally approved via the APD for our Iridium MDP1 28-21 Fed Com 1H well on August 28, 2018.

Due to safety and construction concerns, OXY needs to extend the corridor an additional 15 feet South, giving it a total width of 45 feet. The length of 200 ft. still remains the same.
