13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

BOPCO, L.P. respectfully requests a pad transfer to EMPCO.

The well pad was built with the intention of BOPCO, L.P. to drill and complete an oil well. However, due to economic conditions at the time, the APD for the Poker Lake Unit 370H expired. Due to the XTO Energy, Inc acquisition of BOPCO in March 2017, there are no anticipated plans to use the pad or location for another well.

In lieu of wasting resources, BOPCO, L.P and EMPCO have formed an agreement for EMPCO to take responsibility for and utilize the well pad. Any additional use of the well pad by EMPCO should be applied for via SF-299.

A plat of the built pad is attached.
