SITE RANKING: 0.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Operator,

The New Mexico Oil Conservation Division District 2 Office (OCD) is in receipt of an Initial Report Form C-141 reporting a release of produced fluids occurring at the above referenced well site.

Please submit a work plan proposal for remediation of the release using the NMOCD publication "Guidelines For Remediation of Leaks, Spills, and Releases". This document may be found on the NMOCD web site as follows: [www.emnrd.state.nm.us/ocd](http://www.emnrd.state.nm.us/ocd) Click on Publications, Environmental Handbook, Miscellaneous Guidelines, Remediation of Leaks, Spills and Releases.

Please include an outline of any remedial or initial response work that has been done to date.

Submit this proposal to the NMOCD District 2 Office no later than July 10, 2006.

If I can be of assistance please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Bratcher".
