Dear Kaye,

We have received your C-104 for the above noted well and I am holding this form and plan to send out a formal letter withholding the allowable for this well to produce due to the fact that your company again is in violation with a number of rules.

Please send to us as soon as possible the complete set of electric logs including the temperature survey.

Yours truly,

Bryan Arrant  
District II Geologist  
505-748-10283 ext. 103
