RE: TRIGG FEDERAL #1

To Whom It May Concern:

30-015-25006

In reference to the notice of written order regarding a plan for reclamation of the old drilling pit, Dakota Resources submits this plan for approval:

Drilling pit will not be opened

1. Cover contaminated area w/ 12 mil. reinforced plastic.
2. Cover plastic w/ 6" caliche.
3. Cover caliche w/ 30" of top soil.
4. Reseed per BLM recommendation.

During the time of the cleanup of the old pit, we will also reduce the size of the caliche pad and reseed it to meet BLM specs.

Work will begin in approximately 30 days and will be completed within 90 days. We will notify the BLM prior to the actual start date.

Sincerely,

Rick Maddox
Production Superintendent

OCD approval conditional.
Well must meet BLM
Requirements and obtain
Their approval.

Ranking Score (Total Points)							

If this is a pit closure: (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if you are burying in place) onsite ☐ offsite ☐ If offsite, name of facility _____. (3) Attach a general description of remedial action taken including remediation start date and end date. (4) Groundwater encountered: No ☐ Yes ☐ If yes, show depth below ground surface _____ ft. and attach sample results. (5) Attach soil sample results and a diagram of sample locations and excavations.

Additional Comments:

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐, or an (attached) alternative OCD-approved plan ☐.
