Pit or Below-Grade Tank Registration or Closure

Is pit or below-grade tank covered by a "general plan"? Yes \(\text{No } \text{X} \) Type of action: Registration of a pit or below-grade tank \(\text{Closure of a pit or below-grade tank } \text{X} \)		
Operator: Stephens & Johnson Operating Co. Telephone: 940-723-2166 e-mail address: mkincaid@s.joc.net Address: P.O. Box 2249 Wichita Falls, Texas 76307-2249 Facility or well name: East Millman Pool Unit #6-8 API #: 30-015-34890 U/L or Qtr/Qtr A Sec 13 T19S R 28E		
County: Eddy Latitude Longitude NAD: 1927 1983 Surface Owner Federal State Private Indian		
Pit Type: Drilling X Production Disposal Workover Emergency Lined X Unlimited Liner type: Synthetic X Thickness 12 mil Clay Pit Volume 7000 bbl	Below-grade tank Volume:bbl Type of fluid: Construction material: Double-walled, with leak detection? Yes If not, explain why not	
Depth to ground water (vertical distance from bottom of pit to seasonal high water elevation of ground water.)	Less than 50 feet 50 feet or more, but less than 100 feet	(20 points) (10 points)
Wellhead protection area. (Less than 200 feet from a private domestic water source, or less than 1000 feet from all other water sources.)	Yes No	(0 points) X (20 points) (0 points) X
Distance to surface water: (horizontal distance to all wetlands, playas, irrigation canals, ditches, and perennial and ephemeral watercourses.)	Less than 200 feet 200 feet or more, but less than 1000 feet 1000 feet or more	(20 points) (10 points) (0 points)
If this is a pit closure: (1) attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if you are burying in place) onsite \(\bigcirc \) offsite \(\Bigcirc \) If offsite, name of facility \(\bigcirc \) (3) Attach a general description of remedial action taken including remediation start date and end date. (4) Groundwater encountered: No \(\bigcirc \) Yes \(\Bigcirc \) If yes, show depth below ground surface \(\bigcirc \) ft. and attach sample results. (5) Attach soil sample results and a diagram of sample locations and excavations.		
Additional Comments: A deep bury pit 15' x 20' x 15' deep will be dug inside the reserve pit area and lined with a 12 mil liner. All drilling pit material will be placed inside the deep bury pit. The drilling pit material will be encapsulated by folding the 12 mil liner in on the sides and top of pit and then installing a 20 mil liner on top. Drilling pit area will then be leveled to cover the deep bury pit.		
At least 3' of top soil will be put on top of the drilling pit area and the terrain returned to as close to original condition as possible.		
I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines [X], a general permit [
otherwise endanger public health or the environment. Nor does it relieve the operator of its responsibility for compliance with any other federal, state, or local laws and/or regulations.
