water source, or less than 1000 feet from all other water sources.)	No ✓	(0 points) ✓
Distance to surface water: (horizontal distance to all wetlands, playas, irrigation canals, ditches, and perennial and ephemeral watercourses.)	Less than 200 feet	(20 points)
	200 feet or more, but less than 1000 feet	(10 points)
	1000 feet or more ✓	(0 points) V
	Ranking Score (Total Points)	0 points
If this is a pit closure: (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite		
box if you are burying in place) onsite 🔲 offsite 🗍 If offsite, name of facility (3) Attach a general description of remedial action taken		
including remediation start date and end date. (4) Groundwater encountered: No 🛛 Yes 🗌 If yes, show depth below ground surfaceft. and attach sample		
results.		
(5) Attach soil sample results and a diagram of sample locations and excavations.		
Additional Comments:		
Clean soil previously placed over the unlined pit was excavate d to a minimum 3-ft depth and stockpiled on the perimeter of the excavated area.		
A 106' X 60' 20-mil woven liner was placed over the top of the drilling pit (liner dimensions provided a 5 -ft overlap on all sides).		
After liner placement, the stockpiled clean soil was pushed back over the excavated area maintaining a 3-ft clean top soil layer over the installed top liner.
