13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

OXY USA WTP LP respectfully requests approval to store and sell oil and dispose of water off lease. Due to a current workover the tanks were removed from the Government AA lease to minimize surface disturbance, instead of setting the old tanks back on the location, OXY proposes to measure the oil and water prior to leaving the lease and sending the oil the Government R storage facility, Lease No. NM6856. Please see attached for a copy of the proposed facility.

Gas will be measured on lease.
