LOV NO. 028506  
LETTER OF VIOLATION - Inspection

Dear Operator:

The following inspection(s) indicate that the well, equipment, location or operational status of the well(s) failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date(s) indicated.

Please notify the proper district office of the Division, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

## **INSPECTION DETAIL SECTION**

**Violations**

Absent Well Identification Signs (Rule 103)

**Comments on Inspection:** No well sign. Violation Rule 103. No flow line or production equipment. (Recent Re-entry) Lined pit open on site contains fluids with some hydrocarbon residues on East end of pit. All hydrocarbons are to be removed from pit surface. Trench from well head area to pit was not lined and has visible staining. Remediation will be required in this area. Fence is down around pit and is to be repaired.

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of CIVIL PENALTIES for your violation of OCD rules.

Sincerely,

Artesia OCD District Office
