Dear Mr. Glasscock:

30-015-35387

We are in receipt of your requests dated August 24, 2006 concerning four test wells in the Remuda Basin area. We understand that these are to be deep gas wells completed in the Morrow formation. The wells are the Remuda Basin 36 State #1 (1980' FNL & 660' FEL, Section 36, T23S-R29E); the Remuda Basin 36 State #2 (1980' FEL & 660' FSL, Section 36, T23S-R29E); the Remuda Basin 24 State #9 (660' FNL & 660' FEL, Section 24, T23S-R29E); and the Remuda Basin 30 State Com #12 (660' FNL & 660' FWL, Section 30, T23S-R30E).

The locations requested are located further than 1 mile from Mosaic's LMR and about 1 mile from Mosaic's lease. Also, several oil wells have already been drilled in the area. For these reasons Mosaic Potash does not object to drilling at these locations.

As more information becomes available, our estimates of the extent of potash resources in any given area may change. Therefore, please consider this "no objection" to this location to be valid for one year only. If you are still considering this well location at a date later than one year from today, notify us again at that time so we can make the decision on information current at that time. Do not consider a "no objection offered" or an "objection offered" decision to be permanent.

Mosaic Potash submits this letter in lieu of the forms requested.

Sincerely,

Dan Morehouse
Mine Engineering Superintendent
