13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Request authority to recompleat well from the Morrow to the Wolfcamp. Wolfcamp perforations are planned to be 9148-9194'. The work is to include the use of steel pits, therefore, a pit permit will not be applicable.

14. I hereby certify that the foregoing is true and correct

Subject: Grayburg Deep Unit # 14

Dear Celeste,

In reference to the above noted well:

I do not approve Federal forms.

I cannot approve a C-101 on a Federal well.

This well is non standard for an oil well.

Most all pools @ this area are designated oil pools.

Please notice the employees of interest with your company as to the rules and regulations of the Oil Conservation Division so that there are no problems in approval in producing a well or more importantly compliance issues that may arise.

Yours truly,

Bryan G. Arrant

District II Geologist
