13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Marathon Oil Company has completed operations to run a one month test for economic viability and test of production liner on the MOC Federal No. 8. The one month test ended 10/23/2007. Marathon is currently producing gas off this well to the MOC Federal Central Facility. Gas is being sold into the loop line after being metered through the MOC 'East Test Separator'. This set up for separation and sales is a temporary arrangement until Marathon can set a permanent separator for the MOC Federal No 8 well. Please see attached copy of current battery diagram.
