|  | No XX   | ( 0 points) 0 |
| Distance to surface water: (horizontal distance to all wetlands, playas, irrigation canals, ditches, and perennial and ephemeral watercourses.)  | Less than 200 feet  | (20 points)   |
|  | 200 feet or more, but less than 1000 feet   | (10 points)   |
|  | 1000 feet or more XX  | ( 0 points) 0 |
| <b>Ranking Score (Total Points)</b>  |   | 0             |

**If this is a pit closure:** (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location (check the onsite box if you are burying in place) onsite ☒ offsite ☐ If offsite, name of facility \_\_\_\_\_. (3) Attach a general description of remedial action taken including remediation start date and end date. (4) Groundwater encountered: No ☒ Yes ☐ If yes, show depth below ground surface \_\_\_\_\_ ft. and attach sample results (5) Attach soil sample results and a diagram of sample locations and excavations.

Additional Comments: **The 12 mil plastic will be folded over the top and on top of that 20 mil will be placed. Then 3 feet of stockpiled dirt will be placed on top of the 20 mil and the dirt will be reseeded. Because of the depth of the surface water, it is our understanding that no soil samples are required. This well was drilled with air. Thus, drilling mud was not used. This well has been plugged and a completion notice has been filed.**

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐, or an (attached) alternative OCD-approved plan ☐.

Date: 11/5/07
