13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Yates Petroleum Corporation respectfully requests a 60 day extension of the Notice of Written Order # 08-RH-02W dated 12-10-07.

Yates submitted an intent to pa on 4-4-07 and other owners of the well were notified.

One of the owners indicated he would like to go back to the Morrow zone rather than plug the well.

After additional evaluation, Yates began processes to turn this well over to this owner. We anticipate the completion date of all necessary paperwork to be completed within 60 days.

Change of operator to be submitted by 3/9/08,
