Describe Cause of Problem and Remedial Action Taken.\*

Stuffing box packing failed this allowing produced fluids to come out of wellhead.

Describe Area Affected and Cleanup Action Taken \*

An area of about 50 square feet was affected by the oil leak. A backhoe was employed to dig up the affected area and remediate with fresh soil.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
