

30-015-35704

I certify that on 3/28/2008 tests were conducted on soil samples from the Federal HQ #3.
Following are the results of those tests:

SAMPLE POINT	TPH (EPA Method 8074)	CHLORIDES (EPA Method 8253)	BTEX (PID Meter)
Encapsulation trench bottom 13 depth.	60 ppm	101 ppm	0 ppm

ALL RESULTS ARE PPM

Memo note; Soil samples taken for the 6' depth were from the bottom of the cleaned out drilling pit area. Vertical delineation was the maximum with equipment on location.

All testing was done at Yates Petroleum Corporation or on location.

Respectfully,

Mike Stubblefield
Environmental Regulatory Agent
