Devon Energy Production Company, L.P. has an approved Form C-103 for Temporary Abandoned Status until 5/22/09 (see attached). We submitted that sundry along with the MIT chart because we were unable to get to the well to plug it due to farming operations. There was a small window where the watering of the crop ceased and we were able to get to the well and plug it. We submitted a Form C-103 dated 4/22/08 stating that we had plugged the well, set the dry marker, and cleaned the location (see attached).

This well appears on the NM OCD inactive list and due to farming operations which will last into about November of 2008 we are unable to proceed with reclamation of this surface. We are requesting that this well be removed from the inactive list to help ensure that we do not exceed the maximum allowed wells on that list while waiting for harvest which could jeopardize our operation efforts.

ACCEPTED FOR RECORD

Well no longer appears
on inactive well list
