13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

With consideration given to the volume of fresh water and brine water required to drill the above captioned well, BEPCO, L.P. respectfully requests to alter the dimensions of the reserve pit originally submitted within the APD. The new dimensions of the reserve pit will be 140' x 140' and are illustrated within the attached rig layout diagram. In addition, with consideration given to drilling rig availability, JW Drilling Rig #2 will now be used to drill the well.
