13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

In May 2007, Cimarex partially plugged the Crow Flats 15 State Com No. 1. Cement plugs were set from 9360' to 1750' and a CIBP was set at 1260' with 35' cement. MIT test was run at that time.

05-21-08 Re-ran MIT test to 540# for 30 minutes. Richard Inge with the NMOCD witnessed the test and retained the chart to be scanned into the NMOCD database.

Cimarex requests TA status until the well can be evaluated for Abo Shale potential.

Please note that a completion report for this well was submitted to the OCD on 08-09-07 and accepted by the OCD on 08-13-07.

Temporary Abandoned Status approved
DATE 5/23/2013

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
