13 Describe Proposed or Completed Operation Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once testing has been completed Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection

Yates Petroleum Corporation respectfully requests permission to extend the Temporary Abandon status of this well. We are currently in negotiations with ownership to the shallow zone rights so we can recompleate this well. We've had success in our recent tests with other wells and hopefully can have the land issues resolved within the next 3 months.

Please contact Shannon Moss for additional information at (575) 748-4209.

After 7-30-08 the well must be online or plans to P & A must be submitted.

THIS WILL BE THE LAST Extension
