Re: LOV #02-08-092  
Barbie State #1

Dear Sheri:

Please forgive me for not responding by the 13<sup>th</sup> as I said I would. When I got back from vacation I got caught up in digging out and forgot to respond to you until now.

As we had previously discussed, we were in the process of cleaning up the Barbie Tank battery when Richard inspected it. The fresh oil at the base of the east tank was from having just cleaned the tank out. We have finished cleaning up the battery, hauled off the hydrocarbon contaminated soil to Gandy Marley and installed containment vessels on the load lines.

Thank you for your assistance and direction in addressing this violation.

If you have any questions or need anything further, please contact me at 575-208-7135 or [jharvard@hpcnm.com](mailto:jharvard@hpcnm.com).

Sincerely,

Jeff Harvard, Managing Member  
Harvard Petroleum Company, LLC
