If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The drain/bleed valve and its nipple blew off the injection line 'Y' strainer. The valve and nipple have been replaced.

Describe Area Affected and Cleanup Action Taken.*

An approximate area of 75' by 400' was affected by the release. A vacuum truck was brought onsite to remove recoverable liquids. Soil will be cleaned and tilled.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
