13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work)*

Mack Energy Corporation proposes to change the hole size and casing strings as follows.

Surface casing: No changes.

Intermediate casing: Make this an optional string, to be run in case of lost circulation.

Production casing: Drill a 7 7/8 hole to 4737'. Run 5 1/2" casing from 0-4737' with a external casing packer and ported collar at 2250' to cement 5 1/2 casing back to surface. Casing from 2250-4737 set with isolation packers and strata ports.
