7/15/2008:					
This is a notice of intent to downhole commingle the Cypress #1 well in the South Carlsbad: Atoka and South Carlsbad: Morrow as per the approved Administrative Order DHC-4022. Well is currently dually completed with the Morrow flowing up the 2-7/8" tbg and the Atoka flowing up the 5.5" x 2-7/8" annulus, separated by a packer at 11,842' above Morrow. Plantation Operating will be adding additional Morrow perfs and stimulate as necessary, as well as, stimulate the Atoka zone. The existing tbg and packer will be removed and the well will be down-hole commingled in the Atoka and Morrow formations.					
I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ⊠, a general permit □ or an (attached) alternative OCD-approved plan □.
