13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work and approximate duration thereof. If the proposal deepens directionally or recompletes horizontally, give subsurface location and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirement, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Company, L.P. respectfully requests approval to extend our TA status an additional year. MIT test was done October 4th, 2005. TA for 12 month period ending 10/06/08 was approved 9/18/07. TA'ing this well brings it into OCD compliance until it can be converted to a SWD.

A C-108 (convert to SWD) was filed with the OCD 10/29/07 and Devon is currently evaluating an offset well which has regulatory issues to resolve prior to resubmitting another C-108 and converting this well to a SWD. Due to the time it takes to obtain approvals, we are requesting an extension for one year.

by 11-1-09, either return well to active status or submit plans for Abandonment.

ACCEPTED FOR RECORD

14. I hereby certify that the foregoing is true and correct
