If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

A hole in the side of oil stock tank at the battery was discovered when the pumper gauged. The tank will be repaired.

Describe Area Affected and Cleanup Action Taken.\*

All oil was contained within the firewall. Vacuumed and recovered 57 Bbls of oil. A backhoe was used to scrape and dust location due to cattle in the area. An environmental contractor's services have been obtained to analyze and aid in the efforts to remediate this location.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
