Re: Clearing of Equipment/Debris/ Reseeding

Subject: Shearn Federal Lease

When I spoke with you and Mr. Mark Fesmiree a few weeks ago on the Muncy, you explicitly told me to not disturb any of the items on the surface of the leases.

This letter is to confirm that neither I, nor any representative of the company, have touched anything on the leases.

If you recall we plugged the Shearn Shilo, in accordance with our agreement with the OCD. But, we have not moved any of the items on the lease, in accordance with your verbal instructions.

Ms. Jennifer Van Curen, BLM/Carlsbad issued a Notice for CDM to clear the property and reseed the lease sites in accordance with the Bureau of Land Management Notices.

I do want to encroach on the NMOCD rights nor disobey any verbal instructions from you, but I would like your permission to proceed to clear & reseed the Shearn Lease. There is a Storage Tank [condition unknown], various joints of steel and pvc pipe and a couple of gutted electrical panels.

Please fax or email me authorization.

Regards,

Thomas Kizer

Mr. Kizer,

OCD District II is in receipt of a letter (attached) requesting to proceed to clear equipment from the Shearn Shilo Federal 001 30-015-31061. The letter stated, "When I spoke with you and Mr. Mark Fesmiree a few weeks ago on the Muncy, you explicitly told me to not disturb any of the items on the surface of the leases."

To clarify this, C D Management Company was actually told not to remove any equipment from the sites that the **State of New Mexico** was plugging with the state reclamation fund.

The Shearn Shilo Federal 001 was plugged by C D Management Company and not by the State of New Mexico. Therefore, the direction to not remove equipment did not apply to the Shearn Shilo Federal 001.

Respectfully,  
Sherry Bonham  
NMOCD District II
