Yates Petroleum Corporation respectfully requests the following

Last survey was 65 07\* with a TVD of 7660' and MD of 7824'. Currently TOH for logs. With no flow or pressure on the backside of the 9 5/8" casing, it is requested to trip back in hole with a lateral BHA and reduce production hole size to 7 7/8".

The curve will be landed and we will continue drilling the lateral to TD. Casing will be set and cement brought back to surface
