13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Our proposed plan is to install approximately 4980.6 feet of one 4" above ground, low pressure flowline from the Fed 23 #16 to the Fed 23#1 tank battery. We also plan to run approximately 228 feet of over head electric line from an existing electric line to the Fed 23 #16. The project is located in Sec 23, T-22-S, R-31-E, Eddy County, New Mexico. All construction is on lease and will begin within 30 days of BLM approval. Survey plat attached for your review.
