All oil produced by the Carrasco 14 No. 3 will be separated from the gas and water on the well location using a three phase separator and a heater prior to leaving the location/lease and going to an off-lease storage/sales point. No oil produced by the Carrasco 14 No. 3 will be commingled with any other oil produced from any other well. RONM, LLC., respectfully requests approval for this move due the close proximity of the Carrasco 14-3 and its facilities to the Pecos River.
