Load of produced water was called in to L&E Services LLC on 7/14/2010.

7/15/2010 L&E connected to the stock tank and hauled the oil from location instead of the produced water.

7/16/2010 Israel Rubio, YDC pumper, arrived on location at 11:00 am and discovered the mistake and notified the Field Supervisor, Greg Boans. Greg notified Randy Dade, Artesia NMOC D, approximately 11:30 am, 7/16.2010. Dade instructed Greg to have L&E bring the oil back and put it back into the stock tank, which L&E did.

L&E returned 9'8" oil or 134.56 bbls. The top guage on 7/16/2010 12'0".

I have attached a copy of the water ticket.
