Form C-144 CLEZ
July 21, 2008

For closed-loop systems that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure, submit to the appropriate NMOCD District Office.

Closed-Loop System Permit or Closure Plan Application

(that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure)

Type of action: ☒ Permit ☐ Closure

Instructions: Please submit one application (Form C-144 CLEZ) per individual closed-loop system request. For any application request other than for a closed-loop system that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure, please submit a Form C-144.

Please be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.

I Design Plan

Above ground steel tanks will be used for the management of all fluids

II Operations and Maintenance Plan

Arena Resources Inc will operate and maintain all of the above ground steel tanks in a prudent manner to prevent any spills. Should a leak develop, the appropriate NMOCD Division Office will be notified within 48 hours and the leak will be addressed immediately. During an upset the source of the leak will be isolated and addressed as soon as it is discovered. Free liquids will be removed and loose topsoil will be used to stabilize the spill. The contaminated soil will either be remediated in-situ or be excavated and taken to an approved facility.

III Closure Plan

All fluids will go to an above ground steel tank and will be hauled to an approved facility. Impacted areas which will not be used for future service or operations will be reclaimed as per approved methods.
