13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Interim Reclamation complete.

Downsized:

60' on north side

& west

50' on east side

Ready for inspection.

RE: NM98120; Skelly Unit 623
330' FNL & 2150' FWL, Sec. 14, T17S-R31E
Eddy County, New Mexico

Kanicia Carrillo,

The referenced Sundry Notice (Form 3160-5) was sent Feb. 26, 2010. Bob Ballard conducted a field inspection on March 20, 2010 and did not find any Interim Reclamation (IR). I think the referenced work may have been done on another location. I held on to the Sundry Notice and revisited the location on September 5, 2010 and found where IR has been performed on both the north and the west side instead of the north and the east.

I've made the change on the Sundry and have Accepted for Record. However, the stockpiled topsoil is still present on the location and should be redistributed to the reclaimed surface and contoured to blend with the surrounding landscape. If any questions, please get back to me.

Thanks,

James A. Amos
