FORM APPROVED
OMB No. 1004-0137
Expires: March 31, 2007

SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals.

SUBMIT IN TRIPLICATE- Other instructions on reverse side.

1. Type of Well
 Oil Well Gas Well Other

2. Name of Operator
Cimarex Energy Company of Colorado

3a. Address
600 N. Marienfeld, Suite 600, Midland, Texas 70701

3b. Phone No. (include area code)
42-751-7800

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)
J - 30 - 15S - 28E 1980 FSL 1980 FEL

5. Lease Serial No.
NM 036718

6. If Indian, Allottee or Tribe Name
N/A

7. If Unit or CA/Agreement, Name and/or No.
N/A

8. Well Name and No.
Foran 30 Federal Com. No. 1

9. API Well No.
30-005-62320

10. Field and Pool, or Exploratory Area
Diamond Mound Morrow (Gas)

11. County or Parish, State
Chaves County, New Mexico

12. CHECK APPROPRIATE BOX(ES) TO INDICATE NATURE OF NOTICE, REPORT, OR OTHER DATA

	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex will begin reclamation of the pad and access road on or about 2 September 2010 or as soon as archeological clearance has been secured from the BLM, as follows: (1) Reclaim the upgraded two-track road access from the Mesa State Com No. 1 (SE/4-31-15S-28E) to the Foran 30 Fed. Com. No. 1, continuing onto the Julia 30 Fed. Com. No. 1 (E/2-30-15S-28E) returning it to a primitive two-track for access to BLM's Range Study No. 454. This road requires two different seed mixes. The Loamy SD-3 seed mix shall be applied south of the pipeline crossing of the pad access road (approx. 1/3 of road). The Shallow SD-3/Very Shallow CP-4 seed mix is to be applied north of the pipeline crossing of the pad access road (approx. 2/3 of road). This mix shall also be applied to the reclaimed pad area. (2) The pit area shall be capped per the Pecos District pit capping policy. Soil samples were taken from the pit (NW/2 & SE/2) and selected areas on the pad. Since the pad and pit area are built on top of the narrow, historic two-track, an archeological survey shall be conducted in an expanded area so that adequate room will be available to comply with the District's pit policy. (3) The meter run of Gas Line NMNM06734 shall be removed prior to reclamation of the pad commences per BLM. (4) Cimarex shall comply with Onshore Order No. 1 XII B, which states that the extended grace period for completing reclamation ends in this case, 26 September 2010. (5) Final Abandonment Notice (FAN): The FAN is herewith submitted as a part of this Sundry and should be implemented when required actions have been accomplished as designated within the NWO. Cimarex, therefore, notifies the BLM that when surface reclamation has been successfully established, the location is ready for final inspection by the Authorized Officer and release of its bond is requested.

Please submit a Notice Of Intent (NOI) for reclamation of these facilities.

Reclamation should include actions based on sampling data. A NOI with an separate attached reclamation plan is acceptable.

14. I hereby certify that the foregoing is true
