13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex will begin reclamation of the pad and access road on or about 2 September 2010 or as soon as archeological clearance has been secured from the BLM, as follows: (1) Reclaim the upgraded two-track road access from the Foran Federal 30 Com. No. 1 on to the Foran 30 Federal Com. No. 2. This was originally constructed along an unauthorized route without an archeological clearance. Consequently, this will be necessary prior to infield implementation of the remediation. Once completed, the pad access road will be reclaimed and bermed at the most westerly corner of the Foran Federal 30 Com. No. 1 pad. (2) The pad was constructed on a hillside cut which will be filled with clean material and recontoured to match the surrounding terrain. Samples were taken of barren areas on the pad which otherwise exhibits large patches of aggressive vegetative regrowth. (3) Both the road and the pad/pit areas shall be reseeded with Shallow SD-3/Very Shallow CP-4 seed mix once reclamation is completed. (4) Cimarex shall comply with Onshore Order No.1 XII B, which states that the extended grace period for completing reclamation ends in this case, 3 October 2010. (5) Final Abandonment Notice (FAN): The FAN is herewith submitted as a part of this Sundry and should be implemented when required actions have been accomplished as designated within the NWO. Cimarex, therefore, notifies the BLM that when surface reclamation has been successfully established, the location is ready for final inspection by the Authorized Officer and release of its
