13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BTA submits that the surface location for this well has been improved and restored as follows:

06/08-18/2010

- Excavated impacted site on northwest corner and removed impacted soil to an approved disposal facility. Collected soil samples and submitted them to an approved analytical laboratory. Received approval from BLM and backfilled excavation with clean soil. Site was reseeded with approved BLM seed mix. We will monitor the growth.
- Placed fence around heater/treater area.
- Removed road material on road that was not in use east of the flowline to the battery from the heater/treater and between the heater/treater area and tank battery. Seeded site with approved BLM seed mixture and will monitor.
