NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	15 bbls	Volume Recovered	0 bbls
Source of Release	Flowline	Date and Hour of Occurrence	05/27/10 – 11:30 am	Date and Hour of Discovery	05/27/10 – 11:30 am
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Jim Amos		
By Whom?	Eric Bell, Lease Operator	Date and Hour	05/27/10 – 3:50 pm		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*  
NA

Describe Cause of Problem and Remedial Action Taken.\* On arrival at the Ore Ida 14 #12 the Lease Operator observed some guys doing some dirt work near our poly line; also observed standing water. Went to investigate where it was coming from and an employee from B&H informed Lease Operator that they discovered the leak and went into town to get a clamp and they tried clamping the line. Called and had gang come out and fix line.

Describe Area Affected and Cleanup Action Taken.\* An area approximately 213' x 69' was affected by a produced water leak in the flowline. Depth to groundwater at the site is approximately 90 feet. From 9/21/10 to 10/13/10, Ocotillo Environmental excavated soil from the spill area until side wall samples reported a laboratory chloride concentration of less than 1,000 mg/kg. A portion of the spill area was excavated to a depth of 8.5 feet bgs and lined with a 20 mil plastic liner. The laboratory analyses and chain of custody documentation are attached to this report, as well as a Figure 2 showing all sample locations, their respective chloride concentrations and the placement of the 20 mil liner. All excavated soil was hauled to an NMOCD approved disposal facility.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
